

Portable Exchange Products and Services

Aqua Systems Portable Exchange products and services are second to none. Our knowledgeable, experienced staff, ensures our customers get dependable performance and service time and time again. Our quality begins with selection and purchase of high quality products and continues through our in-house resin processing with multiple internal performance checks.

Our extra steps allow us to set the benchmark for on-site performance of Portable Exchange services. Complimenting our line of exchange services is a widely varied array of configurations and accessory equipment including pumps, UV, submicron filtration and instrumentation to compliment your needs.

PRODUCT SPECIFICATIONS

	Resin (Cu. Ft.)	Minimum		Nominal		Tank Size Dia. x Hgt	Line Size	Weight (lbs)
		Flow (GPM)	Pressure Drop	Flow (GPM)	Pressure Drop			
Dual Bed 1.2	1.2	0.3	1	6	16	8" x 44"	0.75"	180
